| Facestock: <b>3.0 mil TC Matte White Polypropylene</b> | A white, mineral-filled, biaxially-oriented polypropylene film for<br>use in a variety of printing and converting applications where<br>durability, strength, and superior printability are key. One side is<br>matte with a special print-receptive coating and the other is a satin<br>gloss. Its key attribute is excellent thermal transfer printability. It<br>will not tear unless an edge is nicked. Outdoor durability is about<br>3 to 6 months, depending on climatic conditions. |        |            |      |
|  | Typical Value   | 9      |            |      |
| Basis Weight:  | 42.5 #/3300 ft <sup>2</sup>   | 1      |            |      |
| Caliper:   | 3.0 mils  |        |            |      |
| Tensile MD/CD:   | 11352 / 17028   | PSI    |            |      |
| Elongation @ Break MD/TD:                              | 131 / 34%   |        |            |      |
| Opacity:   | 87%   |        |            |      |
|  |   |        |            |      |

| Adhesive: SC-21                              | A robust hot-melt adhesive exhibiting excellent adhesion and quick tack to a broad range of surfaces over a wide application temperature range. It displays the superior converting caracteristics of an acrylic and wide web converting is excellent. |
